WALL ART PRODUCT DETAILS

Wall art is the most popular category on our ala carte menu. Each piece is carefully hand made in the United States by our state-of-the-art printers and framers, and shipped directly to your home or office.

Crystal Metallic Print

The Crystal Metallic print is a very modern unframed piece that fits with most décors. It is an extremely high quality and durable product that is created by encapsulating a professional photographic print between two pieces of high grade plastic material. A unique recessed cleat which is mounted on the back allows the finished piece to “float” one inch off the wall. The print is practically impermeable to air and moisture. Larger pieces are shipped in their own custom wooden crate.

Canvas Prints

The canvas print is a more traditional piece that will compliment any décor. We offer this product as a framed or unframed piece. Your image is printed directly onto a specially treated artist canvas and then sealed with a UV protective spray that is designed to resist harmful ultraviolet light and moisture. Our selection of high quality solid, heavy wood frames are designed to “float” the stretched canvas inside the frame. Each piece comes with the hardware necessary to hang it on your wall.

Water Color Print

This very popular piece is unique in many ways. Your image is printed on the highest quality, archival acid-free Hahnemühle water color paper. Hahnemühle is a German company that is renowned in the art world for producing the finest artist papers since 1584. The print is dry mounted onto a solid acid free board and then sprayed with a UV inhibiting coating that is designed to seal your image from damaging moisture and ultraviolet light. The piece is framed with one of our popular mouldings, and finished with a high grade plexiglass top. The plexiglass top adds further protection against the elements, and also allows our printer to safely ship the finished piece directly to your home or office. The finished piece comes ready to hang on your wall.

Rendered Wall Art

Paradise Photography offers this unique complimentary service to its clients who are serious about investing in wall art, but who would like to see the finished piece “rendered” or digitally placed in their home or office. Once you select your final image, we will digitally frame the piece and place it into a picture of your home that you provide us.
