Superior service, state-of-the-art products, creative styles and friendly personalities are just a few of the many premier qualities that we offer our clients.

Our promise to you is that you will enjoy the benefits of a destination portrait session with a high level of service that will continue when you return home.

SUCCESSFUL PORTRAIT TIPS

WEATHER:

The Turks and Caicos enjoys around 300 sunny days a year. These are ideal conditions for portraits. We conduct most sessions around sunset when the sun is low in the sky. It is often windy in the Turks, so ladies should prepare their hair for windy conditions. Because the weather changes so rapidly in the Turks & Caicos, we prefer to reschedule sessions no earlier than 30 minutes to one hour before the scheduled shoot time. Please note that some of the best lighting conditions occur just before or after inclement weather.

ATTIRE:

Please bring matching clothes for all members of your group. We recommend solid colors and no patterns. Most clients wear casual white tops, khaki bottoms, white sundresses and no shoes, which is in keeping with the island "look". Shoes are not necessary if the session is conducted on the sand, along the beach or on a boat.

IMAGE PREVIEW SESSION:

The purpose of this session is to show you the best images from your shoot and to select the products that you would like to purchase. We conduct these sessions at your villa or resort. The preview session usually lasts around 1 hour.

SCHEDULING:

Portrait sessions usually last around 1 hour. Most of our clients stay in the Turks and Caicos for around 5 to 7 days. Therefore, we prefer to schedule your session at the beginning of your vacation. This gives us enough time to reschedule your shoot in the case of inclement weather. It also gives us ample time to process your images and return to your resort or villa to preview your pictures.

TRASH THE DRESS

Bring your wedding dress and be creative. The sky is the limit!! Do you want to jump off a dock, roll in the sand, or dive off the side of a catamaran into the beautiful blue ocean? Let us help you do something incredible with your dress.

WALL ART PRODUCT DETAILS

Wall art is the most popular a la carte product that our clients order. Each piece is carefully hand crafted in the United States by our state-of-the-art printers and framers, and shipped directly to your home or office.

Crystal Metallic Print

The Crystal Metallic print is a very modern unframed piece that fits with most décors. It is an extremely high quality and durable product that is created by encapsulating a professional photographic print between two pieces of high grade plastic material. A unique recessed cleat which is mounted on the back allows the finished piece to “float” one inch off the wall. The print is impermeable to air and moisture. Larger pieces are shipped in their own hand made, custom wooden crate.

Canvas Prints

The canvas print is a more traditional piece that will compliment any décor. We offer this product either framed or unframed. Your image is printed directly onto a specially treated artist canvas and then sealed with a UV protective spray that is designed to resist harmful ultraviolet light and moisture. Our selection of high quality, heavy, solid wood frames are designed to “float” the stretched canvas inside the frame. Each piece comes with the hardware necessary to hang it on your wall.

Water Color Print

This very popular piece is unique in many ways. Your image is printed on the highest quality, archival acid-free Hahnemühle water color paper. Hahnemühle is a German company which is renowned in the art world for producing the finest artist papers since 1584. The print is dry mounted onto a solid acid free board and then sprayed with a UV inhibiting spray that is designed to seal your image from damaging moisture and ultraviolet light. The piece is framed with one of our popular mouldings, and finished with a high grade plexiglass top. The plexiglass top adds further protection against the elements, and also allows our printer to safely ship the finished piece directly to your home or office. The hardware necessary to hang your print is installed on the back of the piece.

Rendered Wall Art

Paradise Photography offers this unique complimentary service to its clients who are serious about investing in wall art, but who would like to see the finished piece “rendered” or digitally placed in their home or office. Once you select your final image, we will digitally frame the piece and place it into a picture of your home that you provide us.

IMAGE MAKERS

Paradise Photography is a full service boutique photography company with the only two Master and Certified Professional Photographers in the Turks and Caicos Islands. Its two principal image makers, Christine Morden and James Roy, are highly experienced, decorated, creative artists who are known for their unique fine art style of image making.

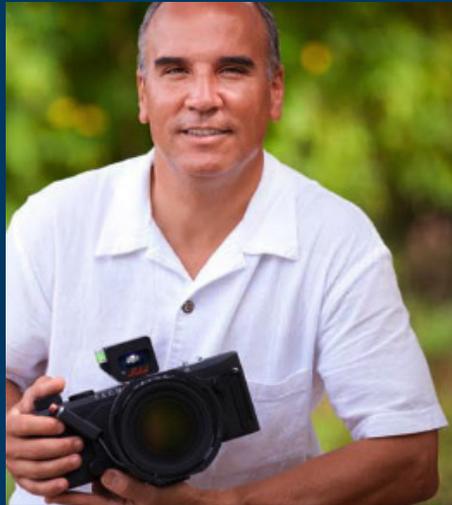

CHRISTINE MORDEN has pursued her passion for photography for over 25 years. Her work is highly sought after and is found in publications such as Caribbean Travel & Life, London Times, Destinations Wedding & Honeymoons and Elite Traveler. The passion for her work, and her contagious and lively personality are evident in the excitement she brings to each session. She is known for portraying her clients' true essence through her natural shooting style and her ability to keep her subjects relaxed. Her goal is to

capture the best image possible and to make each photo session a memorable dynamic experience. An attorney by training, Christine practiced law for over a decade, principally on Capitol Hill and for the White House.

Those credentials helped her gain access to unique opportunities, including photographing the President and the First Lady.
